ORCHID BAY

Reminders & Announcements

Evening OB,

What crazy weather! Looks like summer is waking up. Hope everyone fared well this eve and continue to do so during Florida's social distancing project! To that end, a few reminders and announcements.

First, one for our 4 legged family members. If you did not already know, OB follows the same rules as the county as it relates to animal leash laws. It seems more and more people are walking their dogs without them.

Since the pandemics related restrictions, everyone has been spending more time enjoying the outdoors, humans & canine alike. However, no one should have to walk fearful of your pets interpreted aggression towards them, children or another animal. I would bet we are also getting visitors with dogs from adjacent neighborhoods prompting the amount of calls we received in the last 2 weeks. In short, lets be considerate my friends.

Another note, we should remember almost every business has had to go through some adjustment in the last month, including property management. We have had a few obvious items (boats, trailers, commercial vehicles, vehicles on blocks, swale parking, parking in yards, parking in streets overnight & pressure washing needs to name a few) in the hood that will be addressed

in the coming week. Management let these slide to give everyone time to adjust as well as having to make adjustments of their own. Adjustment Over! Lol.

On the social side... We are looking for ways to have fun with your families and still be apart of something bigger. Your Covid 19 Social Task Force came up with a Sidewalk/Driveway Chalk Art series with 2 contests. Contest 1 is the OB Logo Contest and the 2nd is the Happy Neighbor Contest. You and your families can enter each and win prizes for both! More details will follow soon!

The Trivia event mentioned previously is still in the works. The pilot test of the trivia app used, crashed so we are looking for another application. If you can help, please respond to this email. We need you!

As a follow up, we are still compiling info, with Mrs Wernicks direction, for other community outreach coordination. We had a few other Neighbors also share some good info we will share in the coming week.

NOTE: This is just a preview message sent for your convenience. This message has not been sent to anyone else.
